The purpose of this report is to illustrate the publications produced by the professors, researchers, research fellows during the year 2024.

## 1. Classification of publications

The publications produced by UNISG have been classified into the following nine types:

- **Scopus/WoS index:** articles in journals indexed by the Scopus/Web of Science databases;
- **Articles in class A journals:** articles in journals recognized as class A by ANVUR;
- **International books:** books published by international publishing houses of academic importance of academic relevance (eg. university press);
- **International edited volumes:** edited volumes published by international publishing houses of academic relevance (eg. university press);
- **National books:** books published by national publishing houses of academic relevance;
- **National edited volumes:** edited volumes published by national publishing houses of academic relevance (eg. university press);
- **Chapters in international volumes:** chapters contained in edited volumes or books published by international publishers of academic relevance.
- **Articles in prestigious international scientific journals not indexed:** articles in prestigious international scientific journals (with international editorial board) not WoS / Scopus / FasciaA;
- **Chapters in national volumes:** chapters contained in edited volumes or books published by national publishers of academic relevance.

## **2. UNISG Professors**

## 2.1. Luca ANTONIAZZI

| Year | Type                              | Bibliographic Reference  |
